

## Biography

U.S. Department of Homeland Security  
Washington, D.C.

### **Amy H. Graydon**

Amy Graydon joined the Office of Infrastructure Protection's Infrastructure Security Compliance Division in March 2013, after working for seven years on voluntary programs for the Chemical Sector with the Office's Sector Outreach and Programs Division. In her current role as the chief of the Policy and Rulemaking Branch, Graydon is responsible for leading the policy, rulemaking and stakeholder engagement efforts for the Chemical Facility Anti-Terrorism Standards program and the Ammonium Nitrate Security Program. The branch engages federal, state, local and industry stakeholders to address concerns and issues, as well as researches, analyzes and documents issues that affect the development, sustainment and implementation of the two regulatory programs.

Graydon previously worked in the Office of the Under Secretary for Information Analysis and Infrastructure Protection (IAIP) where she developed processes and procedures to stand up the new directorate within the U.S. Department of Homeland Security. Graydon is a "plank holder" for the Department of Homeland Security. Before joining IAIP, she worked in the legacy U.S. Immigration and Naturalization Service's (INS) National Security Unit where she standardized procedures for agents nation-wide and assisted with the preparation of the unit's materials for the Congressional 9/11 Commission. As part of INS' Office of Internal Audit Branch she conducted reviews of policies and procedures and developed recommendations to address identified gaps.

Graydon also has worked in Washington D.C. and Philadelphia, Pennsylvania, as part of the Department of Education's Office of Student Financial Assistance.

Graydon graduated from Georgetown University with a B.S. in International Business, and received a Masters of Public Administration from George Washington University.
